

# Casperita (PMK-08-05)

## Pumpkin Seed

### **Color/Shape**

White with green handle, classic pumpkin shape with deep ridges.

### **Fruit**

8 oz. - 1 lb. fruit weight

### **Maturity**

77 days.

### **Tolerances**

Powdery Mildew Race 2, WMV tolerance.

### **Features**

Casperita is a great personal size hybrid winter squash. Casperita has Semi-bush habit that is a very good producer. This outstanding pumpkin also features flesh and sugars similar to Acorn type squash. Casperita combines a stunning look with a great classic pumpkin shape and can be used for ornamental and edible purposes.

Committed to providing the highest quality seed from around the world.
