

Howden XXX OP

(PVP applied for) (PMK-08-02)

Pumpkin Seed

Color/Shape

Features a deep orange color, slightly extended shape and deep ridging famous with all Howden varieties.

Fruit

20-25 lbs. on average.

Maturity

115 days.

Features

New Selection from Bruce Howden. Produced at the Howden Farm in Sheffield Ma. Has a strong handle that works well for road side stands and farm markets. Full vine, PVP grown & developed, retains bird foot handle attachment. Probably the best Halloween pumpkin grown.

Committed to providing the highest quality seed from around the world.
